

1. Yourself and your web browser

Sometimes websites behave differently according to the web browser being used. Please tell us the exact browser and version that you have used in preparing this review (e.g. Internet Explorer (I.E) 6.0 or IE 7.0, Mozilla Firefox etc). This can be found in most browsers by clicking on the "Help" tab and selecting the "About"... option. In the case of Firefox, Flocks, Opera, simply put "Firefox", "Flocks", "Opera" as appropriate.

Name of author:
Resource being reviewed: (e-g Full URL name of the web resource site being reviewed)
Please identify your browser software and version:

2. Standardization of layout

Is the layout/navigation consistent throughout the site?	Yes/no
Remedial work required? (please comment)	
Would you recommend any major changes or improvements to the current layout? (please comment)	

Have templates been used to control page appearance	Yes/no
How readily could a blank template be added for a new page within the site?	
Have templates been used consistently throughout the site? (Please explain to which pages this may apply)	

Does the site incorporate an institutional style or visual identity	Yes/no – please specify
Please comment	

Do you think a style sheet needs to be available before adding content into existing pages?	Yes/no
--	--------

Is any special expertise required for site management? (For example, familiarity with a particular scripting language or database system)	Yes/no – please specify
--	-------------------------

Is there any document uploading facility on the site?	Yes/no – please specify
---	-------------------------

Have third party services (e.g. web design agency external to your ESRC project funding) been used in creation of the site?	Yes/no
If yes, could you please provide the names of external contributors as this may affect IPR aspects of the site.	
Please explain if there was any specific reason for using third party services	

3. Type of Documents

Could you identify the types of documents contained in this site e-g PDF, PPT, Audio, Video or even EXEs?	Please list all types used
--	----------------------------

4. Broken Links

We will run automated link-checking software on this site to identify any broken links. We do not therefore need you to duplicate this task. However, if you are aware of important broken links (for example a link to a major website external to the resource under review) and from your expert knowledge of the subject area, you are able to tell us the correct link or an appropriate alternative, it would be helpful if you would tell us. You do not need to record here any broken links within the current website as we will handle these automatically.

Page in this site containing broken link (either the URL or page title)	Description of broken link (either the URL or the text describing the link)	Suggested alternative or correction

5. Secure Area & Portability *(please comment if applicable)*

Is there any login/user area/protected space etc on the site?	Yes/no – please specify
If yes could you explain the reason why would user need authentication to access parts of this site?	

--

Is all the resource content stored on the same server (e-g any link from or to windows, Unix or Linux based servers)?	Yes/no – please specify
Identify any URL if domain name is different from the original	

Are there any transferability related issues which might affect site update or expansion which are not listed above?	Yes/no – please specify
---	-------------------------

6. Summary *(comment if applicable)*

Have you given any particular consideration to issues of site usability, such as overall coherence and user-friendliness (learnability, efficiency, memorability, robustness, satisfaction)?	Yes/no – please specify
--	-------------------------

Do you think there are any specific design conflicts of this site with ReStore online service?	Yes/no
Please identify any examples of the above by referring to the specific URL	

Could you identify any issues of the whole or part of site with W3C compliance or Accessibility compliance ?	Yes/no
Please identify any examples of the above by referring to the specific URL	

7. Site Content Management *(please comment if applicable)*

Are there areas in which the site content has become out of date ? <i>(For example, reference to news, prices, 'current developments' etc. that are no longer reliable or meaningful. Alternatively, research methods that are no longer considered to be best practice. You do not need to tell us about broken links in this question)</i>	Yes/no
--	--------

Page in this site which has out of date content (either the URL or page title)	Any suggestions for update/improvement
--	--

Is there superfluous material that could be removed without detriment?	Yes/no
Page from which content could be removed (either the URL or page title)	

Have you been maintaining any user statistics?	Yes/no
Please comment on the source of statistics and relevant user usage in an appropriate time period	

8. Matters relating to IPR (*Intellectual Property Rights*)

In these questions, we are seeking to understand the input of anyone who may have been external to the original ESRC project through which your resources were created

Is there anybody who helped in creating and maintaining the site but is no longer part of team?	Yes/no
Please elaborate to how much extent were they involved in the development?	
Has anybody externally extended help to support site development & maintenance?	Yes/no
If yes please comment	

Could you please comment on funding of the site development and maintenance? (<i>Was funding received from multiple sources, ESRC or others</i>)	Yes/no
Please comment (<i>e-g funding source name, dates when funding was provided & ceased etc</i>)	

Does the site include any formally published work (journal papers etc)	Yes/no
Please identify any formally published works (e.g. journal papers) that are contained within the site.	

Is there any software etc. hosted on the site	Yes/no
Please identify the exact link to the software package or utility in your comment	

Do you hold licences for any tools used to create and develop the site itself?	Yes/no
Please give the details of tools and licences, including start and end dates if applicable	

Are there any scripts placed on site for use by external sites (<i>such as tracking script or user boost up links scripts</i>)?	Yes/no – please specify
---	-------------------------

9. Brief Summary of site

Now that you have explored this site we would like you to consider how you would summarise its contents and purpose and to think whom it might benefit

Could you please briefly describe in your own words the purpose and contents of the site as you would describe it to a colleague?
Please tell us for which categories of researcher user this site would be useful (<i>For example, postgrads, research assistants, junior academic staff, senior academic staff, others...</i>)

10. Comments to ReStore team

Do you have any further specific comments for the ReStore team or editorial group?
--
